Digital Library

Smarter Balanced Assessment Consortium

Teacher Created. Teacher Approved.

Easily find the classroom activity or lesson you're looking for to enhance your instruction and professional learning. The Digital Library features nearly 3,000 resources created and approved by teachers.
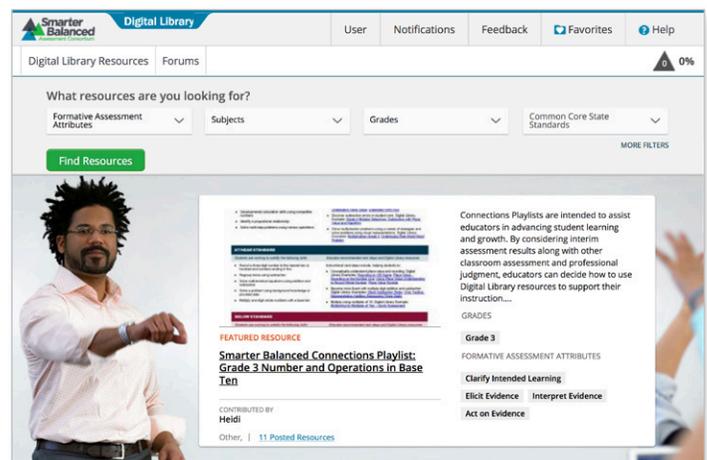

Here are some examples of the ideas, lessons and activities you'll find in the Digital Library.

- ▶ **Instructional Resources** include ideas, activities, tools, and lessons designed to enhance instruction and supplement curriculum within K-12 classrooms.

- ▶ **Professional Learning Resources** focus on educator professional development, mentoring, and coaching, and have utility in professional learning communities.

- ▶ **Playlists** are collections of Digital Library resources that all focus on the same or similar content, organized into progressions of skills or understanding.

Features of the Digital Library

The Digital Library provides teacher-created and approved instructional resources to help educators improve their practice and increase student learning.

- ▶ Powerful Search Filters
- ▶ Collaborate with Colleagues
- ▶ Personalized Experience
