

Claim 1: Students can read closely and analytically to comprehend a range of increasingly complex literary and informational texts.	
Target 13: TEXT STRUCTURES & FEATURES: Relate knowledge of text structures (e.g., chronology, comparison, cause/effect, problem/solution) to interpret or explain information.	
Clarifications	<p>Item require students to analyze the structure or features of a text. This could refer to an author's decisions about the structure of the text (for example, use of sections or chronological order). This could also refer to the author's decision about structures (for example, opening, closure, or presentation of facts). Students must consider how these structures impact meaning or presentation. Students may also be required to apply reasoning to justify their analysis by identifying supporting evidence within the text. Items should go beyond asking students to identify the way in which a text is structured.</p> <p>All items should require students to cite specific textual evidence to support conclusions drawn from the text(s).</p>
Standards	<p>RI-1 <u>Quote accurately from a text when explaining what the text says explicitly and when drawing inferences from the text.</u></p> <p>RI-5 <u>Compare and contrast the overall structure (e.g., chronology, comparison, cause/effect, problem/solution) of events, ideas, concepts, or information in two or more texts.</u></p> <p>RI-7 <u>Draw on information from multiple print or digital sources, demonstrating the ability to locate an answer to a question quickly or to solve a problem efficiently.</u></p> <p>NOTE: <u>Underlined content</u> (from related CC standards) shows what each assessment target could assess.</p>
Depth of Knowledge (DOK)	DOK 2, DOK 3
Stimuli/Passages	<p>Texts must be rich with external text structures (i.e., sections, chronology, general passage structure) and internal structures (i.e., introduction, conclusion, presentation of facts or events) in order to support meaningful analysis.</p> <p>Refer to Smarter Balanced Assessment Consortium: English Language Arts & Literacy Computer Adaptive Test (CAT) and Performance Task (PT) Stimulus Specifications for more information on informational text types.</p>
Dual-Text Stimuli	<p>When a dual-text set contains one literary and one informational text, the informational text (text #1) is the primary focus, and the set of items must include items from the informational stimulus as well as items written across both texts. The literary text (text #2) must only be used as a background piece for informational text, and no items can be written for only the literary text. If both texts are informational, items may be written to either or both texts. In all dual-text stimuli sets, between 25 and 40% of the items should be written across both texts.</p> <p>When developing items from a dual-text set, Task Model 5 (short-text constructed-response—WR) should be written using the <u>Appropriate Stems for Dual-Text Stimuli</u> only to ensure students will have the opportunity to respond in</p>

English Language Arts Specification: Grade 5 Claim 1 Target 13

	<p>writing to information from both texts. Between 25 and 40% of all other items written in the dual-text set should be written across both texts.</p> <p>The title of each text should be included in the stem when more than one text is used. Dual-text is considered long text.</p>
Accessibility	Refer to the Smarter Balanced Assessment Consortium: Usability, Accessibility, and Accommodations Guidelines for information on accessibility.
Evidence Required	<ol style="list-style-type: none"> 1. The student will determine how the overall structure of a text impacts its meaning. 2. The student will analyze or interpret why the author structured elements within the text in a certain manner and the impact of that structure on meaning.
Allowable Item Types	Multiple Choice, single correct response (MC); Multiple Choice, multiple correct response (MS)

Task Models	
Task Model 1 Item Type: Multiple Choice, single correct response (MC) DOK: 2,3	<p>Task Description:</p> <p>The item stem will prompt the selection of a statement that requires the student to analyze, interpret, or connect ideas regarding the text structure or features. The answer choices will present four options of similar structure. The correct answer will be a clearly discernible and correct description, analysis, or interpretation of the text structure or features. The distractors will be statements that may be plausible to students who 1) misinterpret details in the text or text feature OR 2) make erroneous analyses about the text or text feature. Distractors will reflect common student errors. Rationales should state the justification for the type of plausible distractor.</p> <p>Target Evidence Statements:</p> <ol style="list-style-type: none"> 1. The student will determine how the overall structure of a text impacts its meaning. 2. The student will analyze or interpret why the author structured elements within the text in a certain manner and the impact of that structure on meaning. <p>Appropriate Stems:</p> <ul style="list-style-type: none"> • What effect does [provide text structure/format/feature/etc.] have on the meaning of the passage OR reader's understanding of [provide element affected by structure, such as the structure of the central idea, presentation of information, or the structure of events in the text]? • What is the most likely reason the author [used/included] [provide text structure/format/feature/etc.] in the passage? • The author [used/included] [provide text structure/format/feature]. What is the most likely reason the author wrote the passage this way? • The author [used/included] [provide text structure/format/feature/etc.]. How does this [add to/affect] [provide element affected by structure, such as central idea, presentation of information, or events]? • How does the [first paragraph/first section/introduction] about [content in text] [add to/affect] [provide element affected by structure, such as central idea, presentation of information, or events]? • Read the [sentence(s)/paragraph(s)/section(s)]. [excerpt from text] How do(es) the [sentence(s)/paragraph(s)/section(s)] about [provide content in text] [add to/affect] [provide element affected by structure, such as central idea, presentation of information, or events]? • Read the [sentence(s)/heading(s)/question(s)/quotation(s)/ etc.] from the passage. [excerpt from text] Which of these best describes why the author [began with/ended with/used] [this/these] [sentence(s)/heading(s)/question(s)/ cause/effect/problem/etc.] in the passage? • Read the [sentence(s)/paragraph(s)/section(s)]. [excerpt from text]

	<p>Why is the difference between [this/these] [sentence(s)/paragraph(s)/section(s)] and the one(s) that came [before it/after it] important to the passage?</p> <ul style="list-style-type: none"> Read the [sentence(s)/paragraph(s)/section(s)]. [excerpt from text] <p>Choose the statement that best explains why the author chose to include [this/these] sentence(s)/paragraph(s)/section(s).</p> <ul style="list-style-type: none"> Why did the author choose to [begin/end] the passage with [provide structure (paragraph/section/event/feature/etc.)]? Why is using [provide text structure] important to understanding [the author's point of view/author's purpose/specific information/events/etc.] in the passage? How does [using/beginning/ending/including] affect the meaning of the passage? <p>Appropriate Stems for Dual-Text Stimuli <u>Only</u>:</p> <ul style="list-style-type: none"> The author used [provide passage structure/format/feature] in [title text #2] to [provide purpose]. What does that tell the reader about [provide element affected by structure] in [title text #1]? How might have the information in [title text #2] affected the way [title text #1] was written? <p>Scoring Rules: Correct response: 1 point; Incorrect response: 0 points</p>
