

**Claim 4:** Students can engage in research/inquiry to investigate topics, and to analyze, integrate, and present information.

**Claim 2:** Students can produce effective writing for a range of purposes and audiences.

**Claim 4**

**Target 2, INTERPRET/INTEGRATE INFORMATION:** Locate information to support central ideas and key details that are provided; select information from data or print and non-print text sources for a given purpose.

**Target 3, ANALYZE INFORMATION/SOURCES:** Distinguish relevant/irrelevant information.

**Target 4, USE EVIDENCE:** Cite evidence to support opinions and ideas.

**Claim 2**

**Target 7, COMPOSE FULL TEXTS:** Write full opinion pieces about topics using a complete writing process attending to purpose and audience: organize ideas by stating a context and focus (opinion), include structures and appropriate transitional strategies for coherence, elaborate and include supporting reasons from sources and an appropriate conclusion.

**Clarifications**

- Performance Task (PT): In general, the PT should allow students to demonstrate deeper thinking and allow more integration of information from resources. Sources should cover the subject sufficiently enough to allow students to form an opinion, but not be too general.
- Choosing Sources: Overall, the sources should offer more factual information and citations than just unsupported opinions.
- Each performance task (PT) should be as unique as possible. Within a PT set, stimuli may, however, be used in more than one PT if necessary and important to the task. This must be done cautiously and to a limited extent only. There should be different companion stimuli and, in addition, the two PTs must not have the same focus. The set of sources should support both sides of an issue. The set of sources should be somewhat balanced so a particular opinion is not privileged; the sources should allow for students to support different opinions.
- Choose sources with writing assignment in mind. Think about writing assignment and whether sources provide enough information for an appropriate opinion full write. Try not to create a writing assignment around a set of sources – the writing purpose **should come from the sources** and not be a forced fit.
- Claim 4 Targets: Target 2 will focus on choosing text and visual elements that support a research central idea, key detail, and/or given purpose as well as the integration of notes into a central idea or key detail category. Target 3 will focus on analyzing sources in order to locate additional information, such as relevant sources of information and relevant information from visual elements that will enhance an existing piece of student writing. Target 4 will focus on using/selecting evidence to support an opinion or an idea.
- Research Questions: The three research questions must represent at least two different Claim 4 targets. Within a PT set, an item task model for a research question (RQ) can be used across PTs.

<b>Stimuli/Text Complexity</b>	PT stimuli should follow the guidelines in the <i>Smarter Balanced Assessment Consortium: English Language Arts &amp; Literacy Computer Adaptive Test (CAT) and Performance Task (PT) Stimulus Specifications</i> ; however, the complexity of the stimuli, taken as a whole, should be at approximately the lower end of the target grade level. The vocabulary used in the stimulus and the item should be on or below grade level. In some instances, vocabulary may be above grade level as long as the stimulus has sufficient context to support the meaning of the word. In other cases, a complex authentic source that is at a reading level above the target grade (i.e., a historical primary source document) may be included, but these should be used with caution and with appropriate supports (e.g., historical context, definitions of key terms).
<b>Key Vocabulary</b>	Please be sure to bracket or footnote all key vocabulary that cannot be understood through surrounding context. Brackets should be used for short definitions (fewer than three words) of a word or term whereas footnotes are used where longer definitions are necessary. (See <i>Smarter Balanced Assessment Consortium: Style Guide</i> .)

<b>Accessibility Concerns</b>	Students will be required to read short and long stimuli, interpret information from text and/or graphic sources, and use a mouse. Students with physical impairments may need to use an adapted mouse or a computer with eye-scanning capabilities. Students who are visually impaired or blind may need enlarged or brailled text and picture descriptions of art. Illustrations that need to be interpreted will need to have detailed written descriptions in order for them to be accessible for students who are blind. Students with reading disabilities may need to read the text to themselves, or use trackers or maskers to follow along. Students with visual-processing impairments may benefit from using a tracker or masker when reading. Other formats or supports may be necessary for students with other disabilities. The accommodations listed here are suggestions and could be altered depending on what accommodations will be allowable. Refer to the <i>Smarter Balanced Assessment Consortium: Usability, Accessibility, and Accommodations Guidelines</i> for information on accessibility concerns.

Task Models	
Performance Task	<p><b>Presenting the Sources:</b> The sources should not be presented with “Read this story/article/letter to the editor.” Students need to initially skim the sources with a purpose, be able to see the questions they will need to answer, and then go back and read the sources more carefully to find the answers.</p> <p><b>Sample Setup #1:</b> “As part of your research you have found two sources.</p> <p>After you have reviewed these sources, you will answer some questions about them. Briefly skim the sources and the three questions that follow. Then, go back and read the sources carefully so you will have the information you will need to answer the questions and complete your research.”</p> <p><b>Sample Setup #2:</b> “You decide to look up more information about this topic. You have found two sources about this topic.</p> <p>After you have reviewed these sources, you will answer some questions about them. Briefly skim the sources and the three questions that follow. Then, go back and read the sources carefully so you will have the information you will need to answer the questions and complete your research.”</p> <p><b>Task Description:</b> The Student Directions should include a motivating setup for every task that provides a paragraph/scenario explaining in an engaging way the issue the student will be researching. The setup places the student in a role to complete a particular task related to the issue. This should be done by establishing the reason for and nature of the research to be done without giving away the final assignment (see examples below in Sample Assignments). The actual assignment for the full write will appear later when it is time to start that task, but the role and issue will allow the student to read with a purpose and a frame of reference.</p> <p>The performance task provides two short-text items and one machine-scored item focused on Claim 4 Targets 2, 3, and 4, and one Claim 2 Target 7 opinion full write. The three items should build toward the full write by increasing the students’ interaction with the sources in preparation for addressing the research demands of the full write.</p> <p>In the opinion full write, the student will state an opinion and in his or her own words, will integrate relevant information from the sources to support the opinion. Students should reference the sources used when integrating relevant information in their writing. The student will elaborate on ideas and maintain a clear focus throughout. The student will address a specific audience and purpose in each full write.</p> <p>After drafting the full write, the student will revise and edit, paying attention to clarity and accuracy as well as to language conventions (e.g., grade-appropriate grammar usage, spelling, capitalization, and punctuation).</p>

To avoid outliers, be sure that the answer choices are about the same length, staggered evenly, or that a balance of length is used (i.e., two short, two long). Order the choices from shortest to longest.  The <b>correct answer choice</b> should be one source that is correct and provides the most useful information on the topic mentioned in the stem.  <b>Distractors</b> are the sentences that should reflect common student errors. Plausible distractors for this model might include: 1) information from the source that is inaccurate and/or 2) source that contains opinion or speculation and/or 3) information from the source that is not useful for the topic.  <b>Rationales</b> should state the justification for why the plausible distractor is incorrect.  <b>Appropriate Stems:</b></p> <ul style="list-style-type: none"> <li>Lead-in: No lead-in  <b>Stimulus:</b> No additional stimulus  <b>Stem:</b> <ul style="list-style-type: none"> <li>Which source has <b>more</b> useful information about &lt;topic&gt;? **Target Evidence Statement**

**Claim 4, Target 4:**

1. The student will select evidence to support opinions or ideas based on evidence collected.

**Description:**

The student will match ideas/opinions to a source number and title. To avoid clueing, do not use the same wording in the idea/opinion as is used in the sources. The student should not be able to match the idea/opinion to the source that supports it by simply matching the wording used.

The **correct answer choices** should fit clearly into one category listed on the table.

**Rationales** should state the justification for why the plausible distractor is incorrect.

**Appropriate Stems:**

**Stimulus:** No additional stimulus  
**Stems:**
  - Click on the boxes to match each source with the [idea/opinion] that it supports. Some [ideas/opinions] may have more than one source selected.

**Example of Formatting:**

	Source #1: <Title>	Source #2: <Title>
<idea/opinion>		
<idea/opinion>		

- Look at the [ideas/opinions] in the table. Decide if the information in Source #1, Source #2, both sources, or neither source supports each [idea/ opinion]. Click on the box to match the source that supports each [idea/opinion]. There will be only one box selected for each [idea/opinion].

**Example of Formatting:**

	Source #1: <Title>	Source #2: <Title>	Both	Neither
<idea/opinion>				
<idea/opinion>				
<idea/opinion>				

- **Clarifications:** Matching tables should have no more than three correct answers at this grade level. If there are too many defensible options (check every possibility) do not use this item type, use multiple-choice.

---	--

In your paper, you will take a side as to whether you allowing only service dogs and miniature horses in public places, or whether you disagree with the rule. Your paper will be read by your teacher and your classmates. Make sure you clearly state your opinion and write several paragraphs supporting your opinion with reasons and details from the sources. Develop your ideas clearly and use your own words, except when quoting directly from the sources. Be sure to give the source title or number for the details or facts you use.

**Note:**

- Use issues related to the classroom, the school, or the community that might affect students.
- Remember this is a less sophisticated form of argumentative writing so students need to be provided with a choice of more than one side.
- Although a letter as an assignment is acceptable, avoid making the assignment a letter to friends or to younger audiences (too informal), or a letter to the town council (too far removed from elementary students' experience or interest).

**Sample Opinion Scoring:**

**REMEMBER: A well-written opinion paper**

- has a clear opinion
- is well-organized and stays on the topic
- has an introduction and conclusion
- uses transitions
- uses details or facts from the sources to support your opinion
- puts the information from the sources in your own words, except when using direct quotations from the sources
- gives the title or number of the source for the details or facts you included
- develops ideas clearly
- uses clear language
- follows rules of writing (spelling, punctuation, and grammar usage)

Holistic Scoring:

- **Variety:** A range of errors includes sentence formation, punctuation, capitalization, grammar usage, and spelling.
- **Severity:** Basic errors are more heavily weighted than higher-level errors.
- **Density:** The proportion of errors to the amount of writing done well. This includes the ratio of errors to the length of the piece.
