

# English Language Arts/Literacy Interim Assessment Blocks

## Fixed Form Blueprint

V.07.12.2017

The Smarter Balanced Interim Assessment Blocks (IABs) are one of two distinct types of interim assessments being made available by the Consortium; the other type is the Interim Comprehensive Assessment (ICAs). IABs are short, focused sets or blocks of items that measure one or more assessment targets. Results from these assessments provide information about a student's strengths or needs in relation to the Common Core State Standards (CCSS) and, therefore, generate more detailed information for instructional purposes than the summative or ICAs alone. The IABs are currently available as fixed forms. The fixed forms are administered online, using the same delivery software as the summative assessments.

This blueprint presents the specific blocks that are available by grade level for English Language Arts/literacy beginning at grade 3 and continuing through high school. Each block-level blueprint contains information about claim(s), assessment target(s), and depth of knowledge level(s) addressed by the items in that block as well as the numbers of items allocated to each of those categories. Other more subject-specific information is also included. For example, this blueprint incorporates details on passage length (claim 1 reading) and scoring of responses.

The blueprint can be used by educators to plan how to integrate the IABs effectively within classroom instruction or to better understand results that are reported. Users of the blueprint can become familiar with the number of IABs for each grade level, the general focus of each IAB, (i.e. which assessment targets are addressed in a specific IAB and the emphasis of each target relative to the other targets in the block). A fifth-grade English Language Arts/literacy teacher, for example, may wish to determine what practice students need in writing informational texts. The teacher would see that there is a block on revising texts composed of fifteen machine-scored items across three assessment targets—revising narrative, informational, and opinion texts—and another brief-write block composed of six items requiring hand scoring across the same three writing purposes. A third option would be to administer a performance task that deals solely with research and informational writing that is also hand scored. Given the differences in class time required and the amount of time needed to score blocks, the teacher would decide which blocks best meet the instructional needs of the class.

Finally, educators can use this blueprint in conjunction with the summative and ICA blueprints to support more comprehensive classroom-level instructional and assessment plans.

## Summary of ELA/Literacy Interim Assessment Blocks: Grades 3–5

SUMMARY: GRADES 3–5		
Block Number	Block Name	Number of Items <sup>1</sup>
1 <sup>2</sup>	Read Literary Texts	14-15
2	Read Informational Texts	14-16
3	Brief Writes	6
4	Revision	15
5 <sup>2</sup>	Language and Vocabulary Use	15
6	Editing	14-15
7 <sup>2</sup>	Listen/Interpret	14-15
8	Research	18
9	Informational Performance Task	0 <sup>3</sup>
10	Opinion Performance Task	6 <sup>3</sup> (grade 3)
11	Narrative Performance Task	6 <sup>3</sup> (grade 4,5)

<sup>1</sup> During the early phase of the Smarter Balanced Interim Assessment, the number of items may vary slightly depending on the size of the item pool.

<sup>2</sup> Block contains new item(s) for 2017–18

<sup>3</sup> For the purpose of this table, Writing PTs are noted as three separate “items”; however, the Writing PT score is derived from a single student response scored on three distinct traits. There are also two or three Research items in each PT, for a total of five or six items per task.

## Summary of ELA/Literacy Interim Assessment Blocks: Grades 6–7
