

SUMMATIVE ASSESSMENT ESTIMATED TESTING TIMES

This document contains the estimated testing times for the summative assessments in English language arts/literacy and mathematics for the member-approved full form and adjusted form summative blueprints. The adjusted form CAT includes about 50% fewer items than the full form, therefore, the estimated times were calculated as half the full form CAT times. The performance tasks times are the same for the full form and adjusted form. Times are estimates of test length for most students. Smarter Balanced assessments are designed as untimed tests; some students may need and should be afforded more time than shown in this table.
